

# Farming & Land Use Advisor Team

The Farming and Land Use team works with all farmers and growers (not just organic ones) offering specialist knowledge and in-depth understanding of agroecological practices across all agriculture sectors in the UK.

Our goal is to increase the proportion of food produced from organic and agroecological systems.

Not sure who to talk to? Call our helpline (**0117 314 5100**) or email [producer.support@soilassociation.org](mailto:producer.support@soilassociation.org).

## Access our help for organic farmers with the changes in farming support payments in England

We're here to help guide you through the changes in farming support payments under the Defra Future Farm Resilience Fund.

You can access FREE workshops and one-to-one sessions (phone and in person) with tailored help and support.

Email [ffr@soilassociation.org](mailto:ffr@soilassociation.org) or see [www.soilassociation.org/ffr](http://www.soilassociation.org/ffr).

**Jerry Alford**
