Green Organics

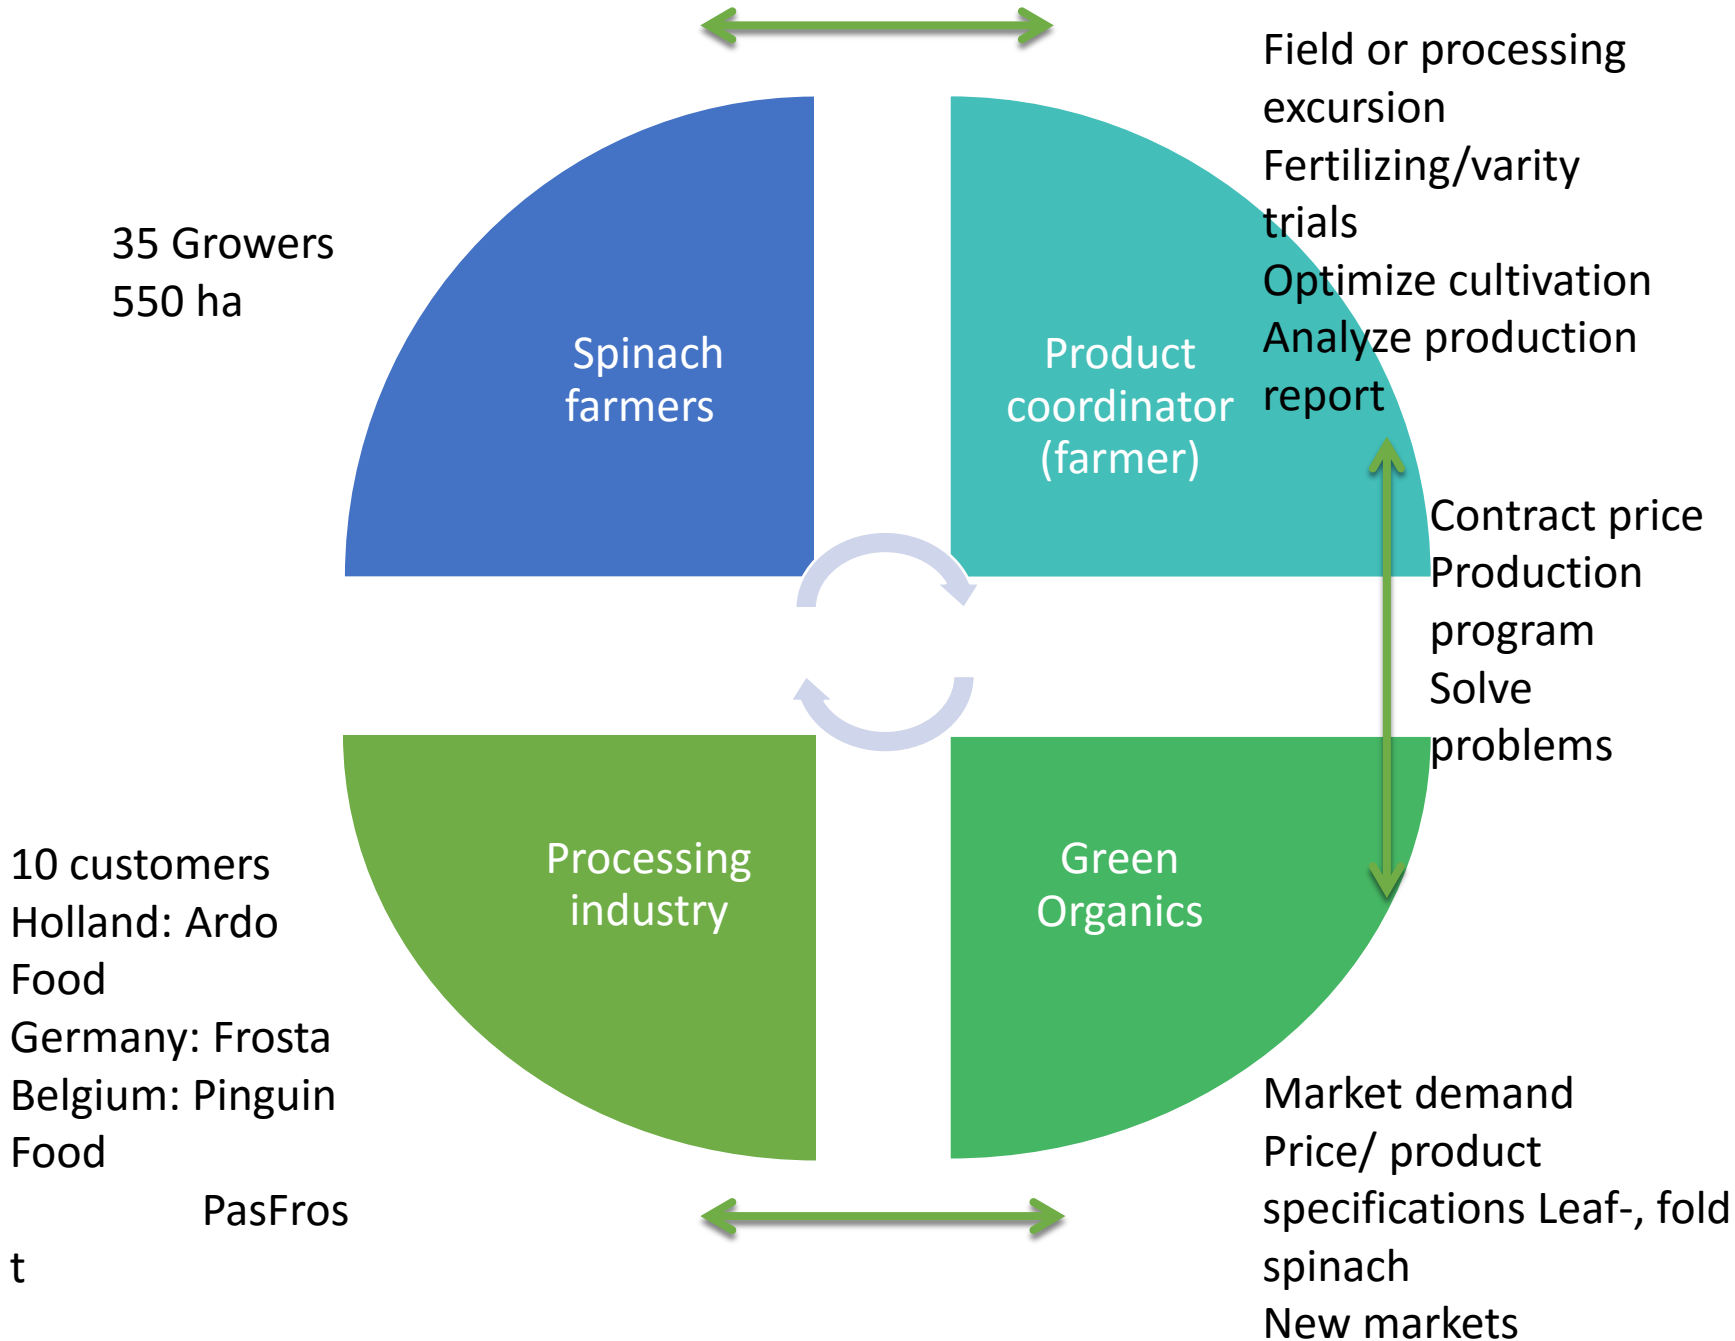

Organic vegetables

Fresh market

Industrial sector- Baby food

- Frozen food
- Canned food
- Dried food

Crops for industrial processing

Spinach	550 ha	Fennel
Pea	400 ha	Leek
Sweetcorn	230 ha	turnip
cabbage		
Bean	200 ha	Celery
Cauliflower	110 ha	Zucchini
Brussels sprouts	110 ha	Carrots
Broccoli	25 ha	
Squash	25 ha	

Harvest excursion

Trial fields

spinach harvester

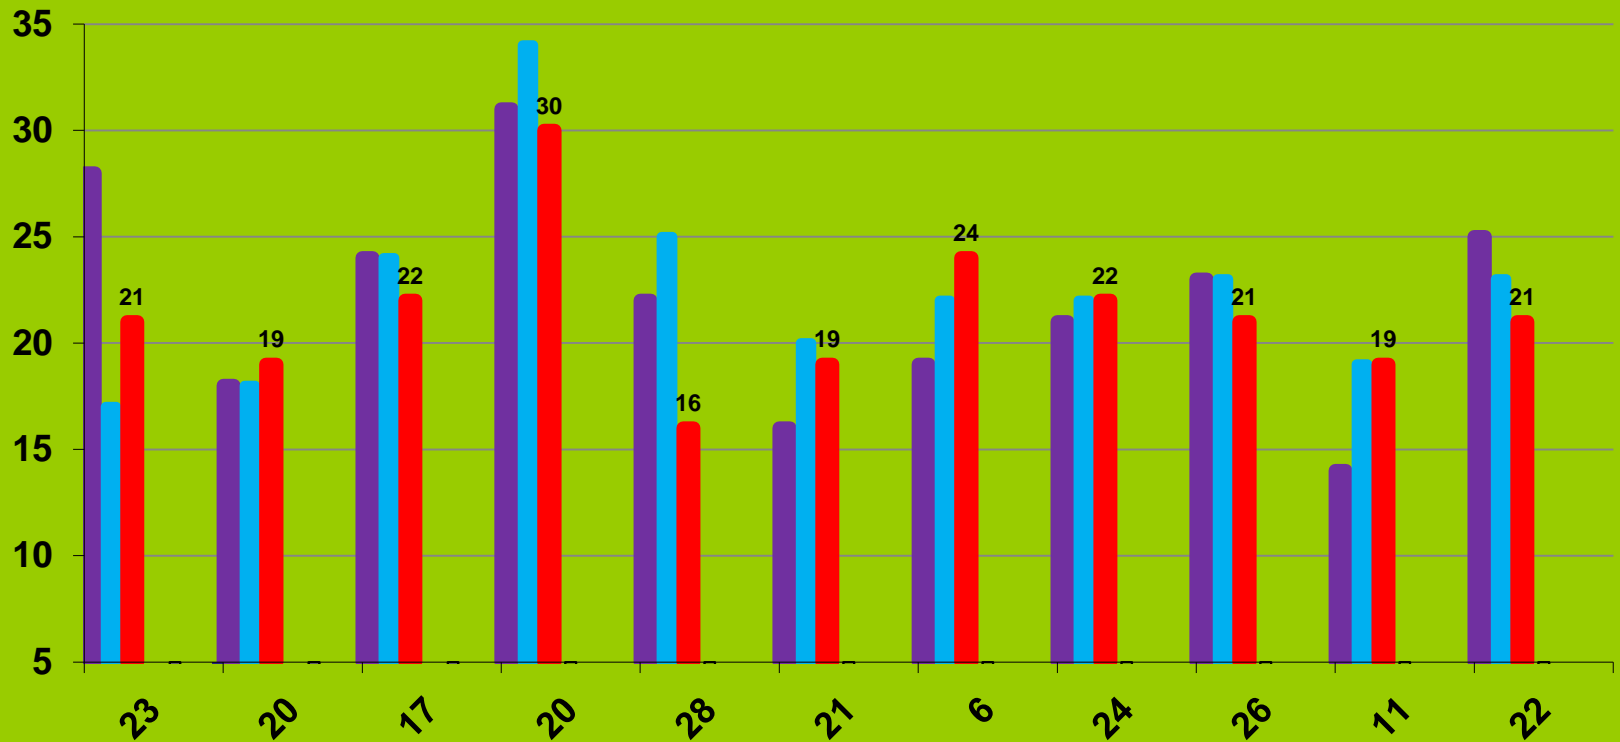

Harvest machine with insect blower

Yield of spinach ton/ha

2013 2014 2015

Results of cooperation

- More knowledge about cultivation and fertilizing
- increasing yield
 - Average in 2006-2012 18 ton/ha
 - Average last 4 years 22 ton/ha
- Mechanical weedcontrol
- Developing new harvest machine
- Reducing of claims by industry
- Increase market share

Future perspective

- Cooperation leads to success
- Ifoam principles
 - Ecology
 - Health
 - Care
 - Fairness
- These principles are the roots from which Organic Agriculture grows and develops
